I, Patricia A. Adgir _____, along with members of the high desert community, object to the open air facility that will process sewage sludge into compost up wind of Hinkley and Barstow for these and other reasons: - We object to the process that San Bernardino County is using in permitting and regulating this facility. We object to the lack of our ability to partake in the process effectively. - We object to the lack of representation from the County of San Bernardino and Supervisor Brad Mitzelfelt. - We object to the lack of consideration of cost effective enclosure. - We object to the lack of independent testing and monitoring on site. - We object to the lack of objection by permitting agencies on the applicant's past history. - We object to lack of emission regulations of the MDAQMD due to our currently clean air and their ineffective regulations. - We object to a substandard level of protection for our area compared to where the sewage sludge is produced. We object to the price our town of 25,000 will have to pay if the sewage sludge of 2 million people is dumped on the ground up wind of our community.

- I, Donna Mumford, along with members of the high desert community, object to the open air facility that will process sewage sludge into compost up wind of Hinkley and Barstow for these and other reasons:
- We object to the process that San Bernardino County is using in permitting and regulating this facility.
- We object to the lack of our ability to partake in the process effectively.
- We object to the lack of representation from the County of San Bernardino and Supervisor Brad Mitzelfelt.
 - We object to the lack of consideration of cost effective enclosure.
 - We object to the lack of independent testing and monitoring on site.
 - We object to the lack of objection by permitting agencies on the applicant's past
 - We object to lack of emission regulations of the MDAQMD due to our currently clean air and their ineffective regulations.
 - We object to a substandard level of protection for our area compared to where the sewage sludge is produced.

Notice <u>Submittal of Written Material for Regional Board Consideration</u>

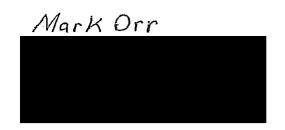

In order to ensure that the State of California Lahontan Regional Water Quality Control Board has the opportunity to fully study and consider written material, it is necessary to submit it at least ten (10) days before the Regional Board Meeting. Pursuant to Title 23 of the California Code of Regulations, Section 648.2, the Regional Board may refuse to admit written testimony into evidence unless the proponent can demonstrate why he or she was unable to submit the material on time or that compliance with the deadline would otherwise create a hardship. If any other party demonstrates prejudice resulting from admission of the written testimony, the Regional Board may refuse to admit it.

Re: Tentative Requirements Nursery Products
Hawes Facility, San Bernardino County.

Correction to letter from Mark Orr sent
Nov 18, 2009 on same subject, Page 2 bottom
paragraph. I believe it was the Modave
Water Agency I originally received information
From requiring containment for run-off
from an 80 acre facility over a period of
30 days.

This does not change my do not concur apinion. I still contend 30 day event is more realistic scenerio by my past experiences of Storm activity in this region. Rest of paragraph and letter remains same and unchanged.

MarkOrn 11-20-2009
